OCCUPANCY AND ACTIVITY

All administration buildings and quarters, plus the H-shaped barracks have no snow on their roofs probably indicating some degree of occupancy. The five other barracks on area "Aa" and three of the 12 barracks in area "Ab" have the snow partially melted off their roofs, again probably indicating some degree of occupancy. The other nine barracks have snow on their roofs which may mean they are not presently occupied. Heavy vehicular scarring is present in all motor pools with light vehicular scarring observed in the storage areas.

PI COMMENTS

The barracks area is covered on fair, snow covered photography. Other facilities observed but not mentioned elsewhere include a grease-rack in area "Ba" and two grease-racks in area "Bb."
